CANOE  KAYAKS

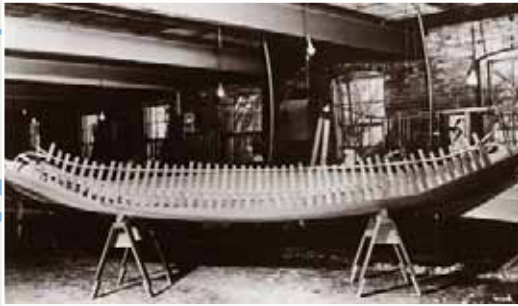

*Advancing Tradition*

2009 CATALOG

# Advancing Tradition

Tradition and technology have had a long and comfortable marriage at Old Town. In 1898 we built our first wood-and-canvas canoe, a more durable, lower maintenance improvement on the Native American birch bark canoe that was its inspiration. We did the same thing with the kayak in 1940, rendering the traditional seal-skin design in more durable wood-and-canvas.

The same spirit of innovation led us to introduce lightweight fiberglass versions of our kayaks and canoes in the 1950s and '60s. And it has continued into the 21st century, as we continually strive to advance the art of paddling through better designs and lighter, more durable materials.

As much as we look ahead, though, we always keep one eye on the past, continuing to be inspired by the best of classic boat-building traditions.

# Before you go...

## GET THE ESSENTIAL GEAR

1. A properly fitted **PFD** (Personal Floatation Device)
2. A **PADDLE** that suits your body, your boat's size and your paddling activity
3. A standard **SAFETY KIT** that includes a bilge pump, boat sponge, paddle leash, safety whistle, paddle float, and mirror.
4. A **DRY BAG** to protect your supplies and valuables.

Other essentials include a first aid kit, water bottle, and sun/rain protection.

# Paddling with children

## ***Start them young!***

Youngsters are often quick learners, so the sooner you can get them out on the water, the more comfortable they'll be.

## ***Make wearing an approved PFD second nature.***

Consult the United States Coast Guard for a list of approved PFDs. Properly fit the PFD by pulling on the shoulder straps to ensure that it cannot slip over the child's head. Check all buckles/ zippers to make sure that they work well and are fastened.

## ***Familiarize them with the boat and equipment.***

Besides PFDs and paddles, teach them the difference between the bow and the stern, where the cockpit is or what a gunwale is.

## ***Practice on land, then shallow water.***

Let the fun begin before even getting on the water by practicing paddle strokes on land. Next, show them how to safely enter and exit the boat and how to sit. Once they're acquainted with the techniques on land, slowly transfer their new skills to shallow water. By progressing them in a non-threatening way, you'll boost their confidence and enjoyment once they're out on the water.

## ***Keep an eye on the weather and tides.***

Introducing children to paddling is most enjoyable and safer when weather conditions are comfortable. Be sure to teach them to stay energized by drinking plenty of water and eating snacks. Teach them how to protect themselves from sun, heat, wind and rain.

## ***Respect the environment, leave no trace.***

Teach children how to be conscientious and respectful visitors to paddling locations. By doing so, you'll help ensure access to these areas for future generations.

## **ABOUT WEIGHT CAPACITY**

For our canoes and kayaks, we use the industry standard of six inches of freeboard to determine the capacity range. With the total stated weight on board, there will be six inches of freeboard between the water and the lowest point that water can come into the boat in calm conditions with experienced paddlers aboard.

In jurisdictions where canoe registration is required, the statutory capacity is typically what will be recognized. Statutory Capacity is the capacity rating of the boat as determined by U.S. Coast Guard endorsed methods and is often listed on the hull. It provides a safe capacity for general conditions and also requires that the boat can support a typical full capacity load in the swamped or overturned condition. Since stated capacities may differ, please let common sense guide you.

# Join the new gym – water – with the all new Vapor

## THE VAPOR—NEW FOR 2009

Introducing Old Town's newest get-in-and-go boat — the Vapor! These sporty newcomers offer a stable, efficient and comfortable ride. Our base models go way beyond the basics with features like an amply cushioned, quick drying seat that flexes when you paddle to a molded-in paddle holder. The "xt" models take it a step further with a covered day well and a space designed to keep your GPS unit handy. Also, new this year: "S" models specifically designed for the small/medium build paddler. Simply choose which feature set you want, then size and color, and you're membership to the new gym is complete!

# Pump water, not gas

## THE OTTER

The Otters are Old Town's solution for affordable family water fun. Not only are they very stable and easy to maneuver, their large cockpits allow for easy entry and exit. Solo paddlers will appreciate the Otter XT's light weight, making them easy to car top and carry.

**10%  
Lighter**

## THE DIRIGO— UPDATED FOR 2009

The Dirigo just lost 10% of its weight without losing any of its comfort, control and convenience! Even though the Dirigo is known for its stability and maneuverability, its construction delivers strength, durability and buoyancy. And with its roomy cockpit and ample storage capacity, it's that much easier to venture out for a little relaxation, fitness and fun.

# Escape to your own backyard

## THE ADVENTURE

These extra-roomy kayaks are great for novices, sightseers, and paddlers looking for an extremely stable, easy going kayak. They feature a large, user-friendly cockpit for easy entry and exit, and plenty of room and load capacity for the gear you need on your next Adventure.

## THE CAYUGA

The Cayuga combines the maneuverability and tracking that avid paddlers need with the stability and comfort a newcomer will appreciate. All of the Cayugas are designed with ample cockpit room and gear storage space so that you can fully concentrate on enjoying your on-water activity.

New 2009 Angler Editions

# Sneak up on the big one

## THE VAPOR ANGLER

Introducing Old Town's newest get-in-and-go-fishing kayak - the Vapor 12xt Angler! These sporty newcomers offer a stable, efficient and comfortable ride. Not only do these boats offer a step above in creature comforts, they provide the right amount of fishing features to get you started. Just bait and cast, and your ready to reel in the big one!

## THE DIRIGO ANGLER

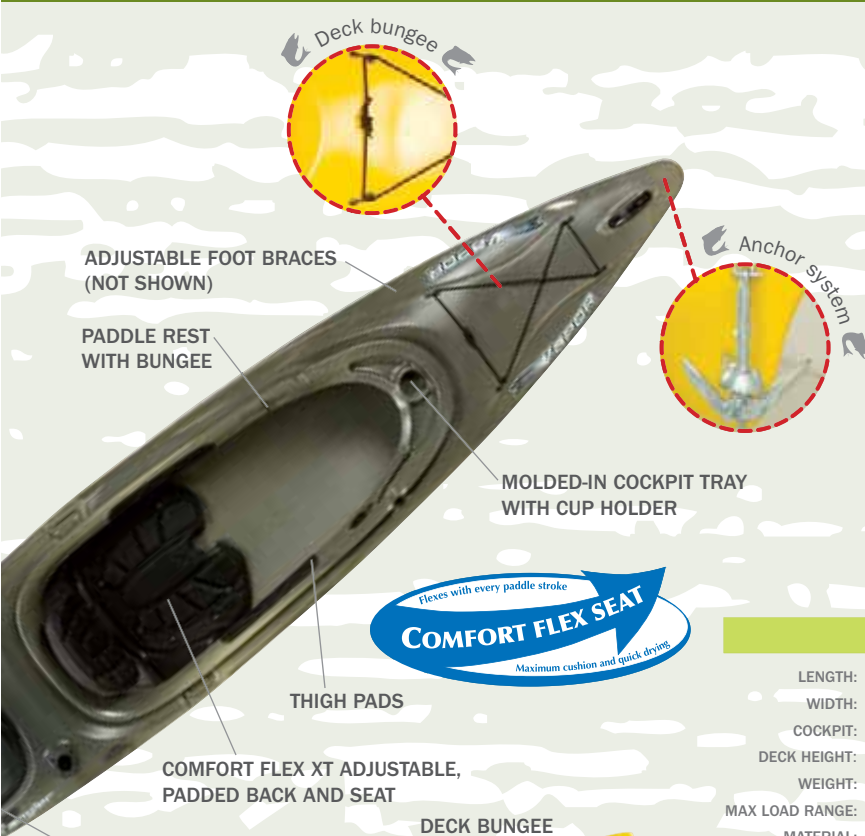

Get closer to the fish, access the hard to reach places, navigate quietly through the water and enjoy the challenge of reeling in the big one from a small craft - all without compromising comfort and convenience! The Dirigo's roomy cockpit and generous width, make it easy to enter and exit and worries of tipping are a thing of the past.

 A close-up photograph of a yellow kayak deck. A large, dark, oval-shaped hatch is visible, surrounded by a safety perimeter line.

# Cruise American style

## THE DISCOVERY SPORT 15 – NEW!

We first started making the Discovery Series in 1984 and 25 years later they're still reknowned for their versatility and durability. To commemorate this special anniversary, we added the Discovery Sport 15 to the line up. Its spacious interior and seat layout make it perfect for sporting activities and recreational family use. Whether rowed, paddled or motored, they'll efficiently glide and maneuver on demand. Designed with full-length stabilizing chines and generous beam, the dry and confident ride is yours to discover.

## THE ROCKPORT – NEW!

Rockports to the recreation rescue for those on a limited budget! Our tough, lightweight, high-density polyethylene construction easily handles the bumps, scratches, and rocks of the rugged outdoors, just like you do. With the stability, durability, comfort and fun features of a Rockport, all you need to reach a place of solid satisfaction is a compass and a paddle.

## THE GUIDE

The Guide represents a breakthrough in design and construction, ultimately offering a durable, stiff and affordable canoe. With its unique beamy cross-section and stabilizing chines, the Guide delivers exceptional stability. And its sharp entry provides surprisingly efficient tracking. Let the Guide show you the way on your next family outing.

# Paddle to your next picnic

## THE PACK

There's enough versatility packed into the 12-foot, 33-pound Pack to keep it going from dawn to dusk, with every member of the family taking a turn. Made of tough, lightweight Royalex®, it's so light that anyone who can paddle solo can carry it; on a portage, to and from the water, on and off the car top. The Pack goes where other canoes can't and is well-suited for a double-bladed paddle.

## THE OSPREY

The Osprey is a great choice if you're looking for a lightweight, stable canoe with excellent durability. Easy to handle both in and out of the water, we built this boat with an arched bottom and straight sides so it is efficient and maneuverable. Whether your paddling or rowing, as its namesake implies, this canoe is at home above the water.

## THE STILLWATER

The Stillwater's primary objective is stability. Whether you're fan-casting for bass or panning the landscape with your telephoto lens, the keeled flat bottom and full chined hull will keep you nice and steady. You'll also appreciate its lightweight construction, handsome design details and hefty carrying capacity. If it's solitude you're seeking, The Stillwater will calmly paddle solo too.

## THE CHARLES RIVER

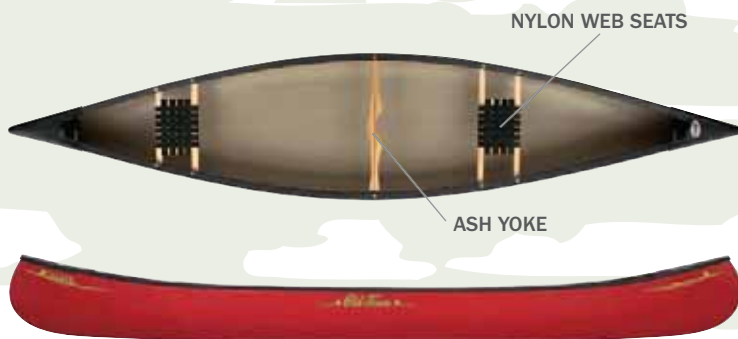

"It is extremely graceful in appearance and very steady, combining beauty in outline with speed and ease of paddling." That's how Old Town's 1903 catalog described our then-new Charles River canoe, and we believe those words ring just as true today. Enjoy yesterday's classic design - curved ends with a tumblehome cross-section - with contemporary materials that provide performance and lightweight durability.

## THE PENOBSCOT

Named after the Native Americans that inhabited Old Town, Maine, since before recorded history — and from whom we've gained immeasurable boat-building knowledge — the Penobscot is an homage to their superb craftsmanship, design, and navigational skills. The Penobscot's nearly plumb ends, shallow arch bottom and slight rocker have made it a sleek, nimble tripping canoe for solo or tandem paddlers. For extended expeditions, consider the lightweight, yet durable, Royalex® versions.

## THE KORU

Koru is a Native term referring to renewal and a fitting name for our technologically advanced composite canoe. We carefully adapted the Algonquin and Ojibway hunting canoe designs to modern paddling and found just the right material and layup to give you lightweight durability, without sacrificing style and glide. By adding tumblehome and extending the waterline slightly with minimum rocker, the Koru provides you with a swift, efficient and comfortable paddling experience.

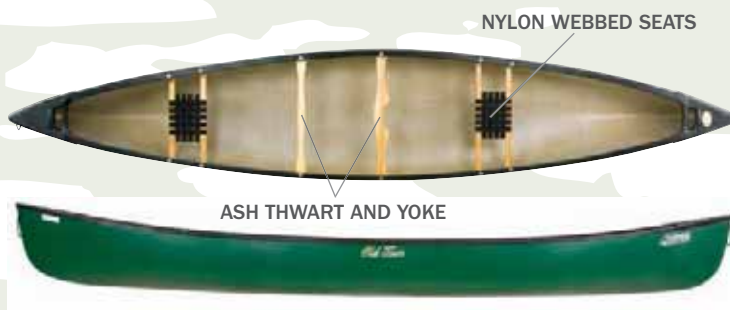

| KORU                |                                    |
|---------------------|------------------------------------|
| LENGTH:             | 17' 5" / 5.3 m                     |

## THE APPALACHIAN

With maximum rocker for excellent maneuverability in whitewater, and flared ends for dryness and buoyancy, you'll be impressed with this 16-foot river runner. The Appalachian's shallow arch hull offers great initial and secondary stability, both solo or tandem paddlers will appreciate its quick response and tight handling in conditions up to Class III. It's also a great choice for those heading for the hills with lots of gear.

## THE TRIPPER

Go ahead and load it down - that's exactly what this wilderness workhorse was designed for! A high volume, shallow arch hull with deep-V entry, lets you easily paddle the Tripper under heavy load. It's moderate rocker and shallow arch offer exceptional stability and let you ride the whitewater with ease.

# Trophy or dinner? You decide.

## THE PREDATOR

All our Predators offer steady stability, great versatility and lots of carrying capacity. They're designed to accommodate motor mounts, while our square stern version can also be rowed. With these rugged sporting canoes you'll be able to use the anchor without leaving your seat - just what a stealthy Predator needs.

## THE AMBUSH - NEW!

Use this unique and versatile hybrid boat for casting, still fishing, trolling, hunting, crabbing or you name it. Stand up or sit down. Take it out with a partner or go solo. Paddle, push-pole, or use an electric trolling motor - you pick the best way to edge into the water. You'll enjoy the efficient hull of a kayak, combined with the storage capacity of a canoe and the stability of a flat boat. Prepare for your next Ambush.

## THE PACK ANGLER

This canoe is crafted to meet the solo angler's demand for light, compact comfort. Made of tough, lightweight Royalex® the Pack Angler is designed for solo portage and an easy lift on and off the car top. At 12 feet long, this canoe navigates the tightest waters and is well-suited for a double-bladed paddle. Add in all the angler features and—dawn 'til dusk—the Pack goes wherever the catch takes you.

## THE OSPREY ANGLER

The Osprey Angler is a great choice if you're looking for a lightweight, stable sporting canoe with excellent durability. Easy to handle both in and out of the water, we built this boat with an arched bottom and straight sides so it is efficient and maneuverable. Whether your paddling or rowing, as its namesake implies, this canoe is focused on fishing.

# Build a lasting legacy

Wood and canvas canoes first appeared in the late 1800s, gaining favor as a more durable, lower-maintenance alternative to the Native American birch bark designs. While their rich history dates back over a century, they are hardly a thing of the past. Today all of our classic wooden canoes are still hand-crafted on the same forms that have been used for generations. We are proud of this heritage and how it defines us. As with any made to order hand-crafted work of art, our wooden canoes take time, but the legacy is worth the wait.

## THE GUIDE

Not only is it beautiful, it's the design Maine guides find most useful in the backcountry. It's low profile reduces windage, while its long flat floor offers a shallow draft and a big cargo space.

## COLORS

ALL OUR WOOD CANOES ARE AVAILABLE IN CANVAS OR FIBERGLASS. AVAILABLE OPTIONS INCLUDE: HALF RIBS, OUTSIDE STEMS, RUB-RAILS, FULL-LENGTH STEM BAND, AND PAINTER RINGS. THE KEEL IS STANDARD.

## OTCA

OTCA is short for Old Town Canoe "A" model. It is the classic and quintessential wooden canoe, which has been virtually unchanged since the turn of the century.

### OTCA 16

LENGTH: 16' / 4.9 m  
 WIDTH: 36" / 91.4 cm  
 WIDTH AT 4" WATERLINE: 36" / 91 cm  
 BOW HEIGHT: 23" / 58.4 cm  
 DEPTH: 12" / 30.4 cm  
 WEIGHT: 76 lbs / 38.1 kg  
 CAPACITY: 600 - 650 lbs / 272.2 - 294.8 kg

### OTCA 17

LENGTH: 17' / 5.2 m  
 WIDTH: 35" / 88.9 cm  
 WIDTH AT 4" WATERLINE: 35" / 88.9 cm  
 BOW HEIGHT: 25.5" / 64.8 cm  
 DEPTH: 12" / 30.4 cm  
 WEIGHT: 80 lbs / 36.2 kg  
 CAPACITY: 650 - 700 lbs / 294.8 - 317.5 kg

## THE TRAPPER

The Trappers are the lightest among our wooden canoes. These swift, stable boats take canoeing back to its simplest roots.

### TRAPPER 11

LENGTH: 11' / 3.4 m  
 WIDTH: 35" / 88.9 cm  
 WIDTH AT 4" WATERLINE: 35.5" / 90.2 cm  
 BOW HEIGHT: 19" / 48 cm  
 DEPTH: 13" / 33 cm  
 WEIGHT: 54 LBS / 24.5 kg  
 CAPACITY: 450 - 500 lbs / 204.1 - 226.8 kg

### TRAPPER 13

LENGTH: 13' / 4 m  
 WIDTH: 36" / 91 cm  
 WIDTH AT 4" WATERLINE: 35.5" / 90.2 cm  
 BOW HEIGHT: 20" / 50.8 cm  
 DEPTH: 12.75" / 32.4 cm  
 WEIGHT: 60 lbs / 27.2 kg  
 CAPACITY: 500 - 550 lbs / 226.8 - 249.5 kg

### TRAPPER 15

LENGTH: 15' / 4.6 m  
 WIDTH: 35.5" / 90.2 cm  
 WIDTH AT 4" WATERLINE: 35.5" / 90.2 cm  
 BOW HEIGHT: 20" / 50.8 cm  
 DEPTH: 11.5" / 29.2 cm  
 WEIGHT: 68 lbs / 30.8 kg  
 CAPACITY: 550 - 600 lbs / 249.5 - 272.2 kg

## THE MOLITOR

Long decks, outside stems and oval mahogany gunwales create a frame so strong no thwarters are needed. It's easy to see the romance in one of these original "courting" canoes.

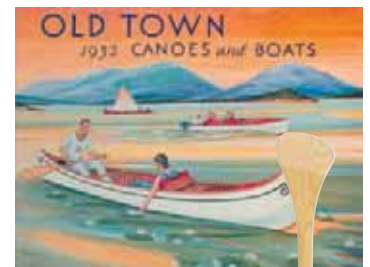

### MOLITOR 17

LENGTH: 17' / 5.2 m  
 WIDTH: 35" / 88.9 cm  
 WIDTH AT 4" WATERLINE: 35" / 88.9 cm  
 BOW HEIGHT: 22" / 55.9 cm  
 DEPTH: 12" / 30.4 cm  
 WEIGHT: 84 lbs / 38.1 kg  
 CAPACITY: 600 - 650 lbs / 272.2 - 294.8 kg
